

## Canva for Infographics and Image Designs

**Description:** Canva is a free web-based design tool where you can create flyers, social media images, posters, infographics, and more.

In this hands on session, you will learn how to use Canva, how to find tutorials for assistance, and you will create your own design.

Canva designs are saved in .jpg, .png, and .pdf formats for print and online.

**Who should attend:** If you use or have used Publisher, this would be a good session for you to attend. If you make flyers, posters, and work with images for your website or social media, this would be a good workshop to attend. If you are interested in creating infographics this is a good session to attend.
